

COFFEE DARK SIDE VANILLA PORTER

We collaborated with our totally-awesome, local-coffee-roaster-of-choice, Cultiva Labs, to find the perfect coffee companion for our Dark Side Vanilla Porter. Their staff put together a "cupping" of several new bean varieties - one spoke to us and said, "Awaken your Dark Side!"

The Colombian bean is called Finca Santa Rita. Freshly roasted coffee and extra Madagascar Vanilla is introduced to the Dark Side via our Rocket Infuser. This cold process yields maximum coffee flavor and aroma without the bitterness. The result is an impeccable balance between the Dark Side you love and quality coffee.
