# CARPE BREWEM

## HAZY IPA

*Hazy – this pale beer appears milky in the glass! This haze is the result of using large amounts of Oats and Wheat along with over 5 lbs of hops per barrel – nearly 3 times the amount found in “regular” beer. The Oats and Wheat make the beer silky and smooth, almost juice-like, and the massive amounts of hops added throughout the brewing, fermenting and conditioning process, bring the juice flavors of papaya, citrus and tropical punch.*
